

August 13, 2018

Dear Secretary General Dr. K. K. Phua,

The Chinese Physical Society is willing to host the IUPAP general assembly meeting in 2020.

The Chinese Physical Society is trying to be more active and involved in IUPAP's activities. We understand that the IUPAP general assembly meeting is the most important meeting of IUPAP. We therefore feel responsible to help hosting the next general assembly meeting. By doing so, we hope to stimulate the enthusiasm of local Chinese physicists participating in international activities, and also to help the international community to learn the current situation of physics research and education in mainland China.

We propose that the meeting is to be held in the Institute of Physics, Chinese Academy of Sciences. This institution is located in the Zhong-Guan-Cun area, Beijing, neighboring to the most famous universities in China such as Peking University and Tsinghua University. We will obey the tradition of IUPAP general assembly meetings, arranging public lectures, laboratory tours, reception and banquet, etc. Also, we will help organizing the executive council and the commission chair meeting. No registration fee will be charged. The accommodation for the delegates will be arranged in a four-star hotel within the walking distance to the meeting venue, with an estimated rate of RMB640 (~USD100) per night.

October or November is the best season in Beijing. We would welcome all the delegates of IUPAP to Beijing in 2020!

Sincerely yours,

Li Lu, Liaison,
The Chinese Physical Society
